

# FRANCO NUÑEZ

## DEVOPS ENGINEER

### PROFESSIONAL PROFILE

DevOps Engineer with 6 years of experience in IT, specialized in AWS cloud infrastructure and CI/CD pipeline automation. Solid background as a Fullstack Developer (MERN) that allows me to collaborate effectively with product teams and understand the full software lifecycle. AWS Solutions Architect certified with hands-on experience in Terraform, Kubernetes, Docker, and Azure DevOps.

### EXPERIENCE

#### DevOps Engineer

AVALITH | DEC 2025 - PRESENT  
CLIENT SANTILLANA

- Manage cloud infrastructure on AWS (EC2, S3, EKS, ECS, CloudFront, IAM) for Santillana's international accounts, ensuring availability and scalability.
- Execute nightly maintenance windows (3am-7am) with zero-downtime: deployments, updates, and incident resolution.
- Implement and maintain CI/CD pipelines with GitHub Actions and Azure DevOps, reducing delivery times in production environments.
- Generate daily status reports for the client on overnight activities and changes applied in production.

#### Infrastructure Analyst

CFOTECH | OCT 2023 - APRIL 2025  
CLIENT RED LINK

- Administered Windows and Linux servers, managing accounts, configurations, and technical support in the WebHelpDesk ticketing system.
- Developed automated reports with PowerBI for infrastructure and SLA tracking.
- Managed Microsoft SQL Server and PostgreSQL databases, including Python scripting for task automation.

#### DevOps Engineer

SISORG | JAN 2023 - OCT 2023

- Configured CI/CD pipelines in Azure DevOps for build and deploy automation across multiple environments.
- Managed AWS infrastructure (IAM, S3, EC2, RDS, Lex) and administered IIS servers on Windows Server.
- API testing and client support for enterprise software.
- Managed Zendesk support workflows for internal users.
